HGH India will bring together home textiles, home décor, houseware and gifts categories under one roof. Supported by many focussed initiatives like PreSense Trends 2026-27, Smart Kitchen, H-Circle Product Innovation Awards, HomeTech, Sustainability, Indian Heritage, HGH India

Interactive and over 3,000 products from 700 brands and manufacturers from 30 countries, 19th edition of HGH India is a must-visit event for everyone in the home business.

Entry is open to trade professionals across manufacturing, retail, distribution, importing, institutional buying, architecture and interior design.

In this fourth edition of HGH India News, we introduce you to more dimensions and reasons to visit the HGH India. You can read previous three editions of HGH India News in the language of your choice on our website www.hghindia.com.

Home Décor & Furniture Hall 3

Italian Pavilion by ITA (Hall 3)

Italy's globally recognised design and lifestyle industry will be represented through a selection of innovative brands spanning glassware, kitchenware, lighting, ceramics and premium furniture. The Italian Trade Agency (ITA) will bring several Italian brands to India in Hall 3, including:

I Biagi

IBIAGI is one of Italy's leading companies specialising in high-end home décor, luxury furniture and handcrafted accessories for premium interiors worldwide. Since 1954, the company has focused on developing one of the world's largest ranges of luxury home accessories, combining mouth-blown and hand-cut Italian crystal, handmade bronze elements, 24kt gold plating and semi-precious

stones such as malachite and amethyst. Alongside its extensive collections, IBIAGI is also recognised for its bespoke customisation capabilities, developing exclusive products and complete interior projects.

Kutyna

Kutyna, developed by Italian design studio Archi.mo.ra, represents a contemporary approach to multifunctional furniture and patented design innovation. The brand combines engineering precision, versatility

and modern aesthetics through transformable furniture and lighting concepts developed for evolving contemporary spaces. Among its highlights is Kutyna, a patented transparent polycarbonate seating system that transforms between chair, stool and coffee table configurations, alongside La Flaminia, an adaptive lighting concept capable of changing form and function through an innovative telescopic system designed for different interior environments.

Laudarte

Born over thirty years ago from a visionary blend of fashion and design, Laudarte has established itself as one of Italy's globally recognised luxury lighting brands. Inspired by the artistic and cultural heritage of Southern Italy, the brand transforms light into an art form through exceptional artisanal craftsmanship,

rare materials and architectural detailing. Combining classical nobility with contemporary luxury, Laudarte develops bespoke lighting and décor collections that define some of the world's finest luxury interiors and custom-designed spaces.

Moschella Sedute

Founded by Pasquale Moschella in 2007, Moschella Sedute began as an artisanal workshop creating chairs and armchairs for a select group of private clients. Built on decades of experience in the furniture industry, the company today focuses on three core pillars — high-quality materials, continuous design innovation and the development of iconic furniture solutions. Moschella Sedute

combines refined Italian craftsmanship with contemporary aesthetics to create comfortable, innovative and flexible seating systems designed for modern residential and work environments.

CONTEMPORARY | FUTURISTIC | SUSTAINABLE

Rossini

Rossini S.r.l., based in Matera, Italy, is a premium furniture company specialising in luxury sofas and seating systems that combine traditional Made-in-Italy craftsmanship with advanced manufacturing technologies. With

over thirty years of experience, the company is recognised for its contemporary sofa collections, refined detailing, high-quality leather upholstery and advanced comfort systems including electric recliner mechanisms. Supported by modern production technologies such as laser-cutting systems and certified under ISO 9001:2015 standards, Rossini continues to bring Italian elegance, comfort and design innovation to international markets.

Thailand (Hall 3)

Kripp by 348 Décor Company

Thailand-based Kripp by 348 Décor Company is recognised for its handcrafted décor aesthetics, original designs and competitive pricing. The brand will present its latest collection of vases and wooden tableware featuring contemporary forms and detailing.

China (Hall 3)

Zhejiang JK International Co., Ltd.

Zhejiang JK International Co., Ltd. is a Christmas and festive décor manufacturer established in 2002, with products exported to Europe and South America. It will showcase decorative ribbons, Christmas bows, table runners, tablecloths, fabric rolls and placemats for seasonal home décor and gifting applications.

Zhejiang Simplicity Artware Co., Ltd.

Zhejiang Simplicity Artware Co., Ltd. will feature its range of LED candles, glass candles, and glass lighting products, backed by nearly two decades of manufacturing experience. Established in 2005, the company specialises in decorative lighting solutions and has

built long-term business due to its consistency and quality.

India (Hall 3)

Sainik

Sainik will present downstream solutions developed in collaboration with international experts, bringing together sustainability, material innovation and Indian craft traditions. One of the highlights is a Khadi Sofa developed with performance-tested handloom fabric, where every warp and weave has been evaluated for piling, rubs and durability. The

concept reflects a new direction in design that values inclusivity, resource resilience and collaboration within India's village and handloom ecosystem. Sainik is the brand introduced in the Indian market by Fine Silver, a leading exporter from Moradabad.

Ireka Homes

Ireka Homes, recognised for its contemporary furniture and home décor offerings, will bring together a premium mix of kitchen, décor and furniture products designed around comfort, style and everyday functionality. The collection

combines elegant design, quality craftsmanship and practical utility across modern home environments.

Iris

Iris, one of India's leading lifestyle brands in spatial home fragrance and aromacology solutions, will present premium aromacology products including reed diffusers, soy wax

candles, room misters and potpourri. The collection combines functional fragrance solutions with refined decorative appeal suited to modern interiors.

Kohe

Kohe will showcase its new range of handcrafted wall clocks and décor collections as well as bamboo and cane lights designed to combine aesthetics with functionality. The collection spans contemporary, vintage, industrial, luxury and artistic wall clocks. KOHE will also expand its portfolio with decorative wall art and lifestyle décor products.

NaturalYours

Kolkata-based NaturalYours, recognised for its sustainable handcrafted home décor and lifestyle products, will showcase a handcrafted and sustainable range of baskets, storage

solutions, tabletop utilities, serving essentials and home accents developed using natural fibres such as seagrass, water hyacinth, rattan and bamboo. The collection blends artisanal craftsmanship with contemporary forms suited to home décor, hospitality and gifting.

Paramount Home

Moradabad-based Paramount Home, known for its handcrafted tabletop and décor collections, will showcase a wide range of serveware and décor accents in wood and metal, including cake stands, serving bowls,

trays, coasters, storage boxes, flower vases, planters and decorative accessories. The collection is defined by textured finishes, craftsmanship, utility and contemporary styling.

Indian Heritage (Hall 3)

HGH India supported, Indian Heritage pavilion will once again bring India's centuries-old, unique, rich and diverse handicraft & weaving culture live, with possibilities of direct sourcing from the craftspersons themselves. A live demonstration of various crafts by nationally awarded Artisans and craftspersons in this pavilion has been a unique attraction for visitors over the years. Many artisans present in this pavilion are National Awardees by Government of India for their unique skills.

Buyers will find merchandising solutions and unique design vocabulary that fits within contemporary trade context. Indian heritage provides unique sourcing solutions for today's retail, project and gifting markets.

National Design Centre (Hall 3)

National Design Centre (NDC), with the support of Development Commissioner Handicraft, Ministry of Textiles, Government of India, will bring a diverse range of crafts and artisans from various unique craft centres by 20 artisans from across India. The range will include wood and metal carving, textile crafts and a wide range of unique, handmade products for décor, houseware and home textiles. All of these products are sustainable, eco-friendly and a powerful examples of India's rich cultural and craft heritage, which we must adopt in our day-to-day living.

Home Furniture in Hall 3

Furniselan

Furniselan, known for its contemporary and evolving furniture collections, will showcase its Boston Collection, which has expanded significantly since its launch three years ago. The collection has grown from an initial range of 10-12 products to more than 100 products today. The brand will also introduce new additions alongside fresh launches designed for B2B buyers, architects, interior designers and retail partners.

Royal Designs

Royal Designs will introduce a new furniture and décor collection, featuring marble furniture, including side tables, coffee tables and console tables designed to highlight the natural beauty of the material through refined

forms. The brand will also present a new wall art range combining wood and metal with patina finishes, creating decorative pieces with texture, depth and a contemporary visual language.

NECTAR (Hall 3)

North East Centre for Technology Application and Reach (NECTAR), Ministry of DONER, Government of India, will bring 10 exhibitors from the north-east region, well-known for its cane, bamboo, silk and other handicraft products with regional cultural and heritage influences.

Ukraine (Hall 6)

JSC Slovyanski Shpalery

JSC Slovyanski Shpalery, one of Europe's largest wallpaper manufacturers, produces wallpapers under the "Slovyanski Wallpaper" brand and exports across multiple international markets. Known for environmentally friendly and high-quality wallpapers, will offer more than 10 wallpaper categories ranging from

economy to premium, including vinyl, non-woven and hot embossed variants.

Rugs Pavilion (Hall 6)

Carpet Export Promotion Council (CEPC), with the support of Development Commissioner Handicrafts, Ministry of Textiles, Government of India, brings together hand-made rugs and carpet manufacturers from major clusters like Bhadohi, Varanasi, Jaipur, Agra and Panipat. About 20 exhibitors in hall 6, many with export background, will showcase diverse and versatile range of rugs and carpets across categories.

Buyers will find innovations, variety and substance in hand-knotted, hand-tufted and

machine-made carpets at different price points for retail and project requirements.

Handloom Pavilion (Hall 6)

The Handloom Pavilion in Hall 6 by HEPC, supported by Development Commissioner Handlooms, Ministry of Textiles, Government of India, will showcase a wide range of handloom-based home textiles, including decorative and functional made-ups, table & kitchen linen, floor cushions, curtains, blinds and more. It will serve as a specialised hub for premium, sustainable, hand-woven home textiles that carry both heritage value and weaving skills identity. G.I. Tagged Handloom products will also be on display.

Sustainability Pavilion (Hall 6)

HGH India, through a Sustainability pavilion created by its team, will focus on the importance and possibilities of sustainable products in Indian homes by adopting eco-friendly, recycled, upcycled, bio-degradable materials and environment manufacturing processes, for day to day living. A must-visit Sustainability Pavilion in hall 6 brings together brands and products built around conscious living and responsible material use.

National Jute Board will bring 6 exhibitors with jute products in this pavilion. Besides, cotton, bamboo, cane, wood and terracotta and recycled fibres, paper, plastics and industrial or domestic waste will also be part of sustainability pavilion.

Sustainability is no longer a side story or a premium-only claim. Retailers, designers and institutional buyers want to be seen by consumers as more environmentally responsible organisations.

National Jute Board (Hall 6)

National Jute Board, Ministry of Textiles, Government of India, through its 6 exhibitors, will offer a wide range of sustainable, lifestyle diversified jute products like shopping bags, wine bags, wall décor etc. offering solutions to growing preference for eco-friendly and bio-degradable materials in the home and lifestyle trade. This is a must visit pavilion for buyers seeking natural and sustainable jute products.

The strength of jute lies in its flexibility as a material that can move across home, retail gifting and institutional channels with equal ease.

HomeTech by NTTM/ MATEXIL (Hall 6)

To promote the usage of safety, health and improved functionality in textiles used in homes, Man-made & Technical Textiles Export Promotion Council (MATEXIL), with the support of National Technical Textiles Mission, Ministry of Textiles, Government of India, will put up a HomeTech Pavilion for the first time at HGH India.

Indian homes, like in developed countries, must move towards use of technically superior, high performance and functional home textiles for safer and better living. The pavilion will enable the architects, interior designers, home textiles retailers and all visitors understand the possibilities with HomeTech and to enable them to integrate high performance and functionality in their furnishings, across living spaces, bedrooms, kitchens, bathrooms, outdoor environments making them safer and consumer friendly.

Fire-resistant, stain-resistant, water-repellent, abrasion-resistant furnishing fabrics, Coated, Laminated and integrated special functional fabrics, anti-microbial bed sheets, disposable non-woven textile solutions, anti-skid flooring are some example of Home Tech.

Visitors can discover vast benefits of Technical Textiles for home applications and new business opportunities in the Indian and International markets.

Sutlej Industries

Sutlej Industries Ltd., a well-established name in furnishing fabrics, will unveil its innovative range of high performance and functional fabrics for indoor and outdoor applications in the HomeTech pavilion in hall 6. Some of these innovations are:

Nesterra's Inherent FR Collection

Developed for the global export market, Nesterra's Inherent FR Collection combines permanent flame-retardant performance with premium aesthetics and durability. Designed to meet the demanding requirements of hospitality, healthcare, commercial, and residential projects worldwide, these fabrics deliver long-lasting safety without compromising on style. The key features include permanent inherent flame-retardant protection and durability with a wide range of colours, textures, and designs.

Outdoor Fabric

Nesterra's Outdoor Collection includes high-performance outdoor fabrics for global markets, combining durability, comfort, and contemporary design. Engineered to withstand sunlight, moisture, and everyday outdoor use, the fabrics are trusted for hospitality, residential, and commercial projects worldwide. They are UV and fade resistant, durable and weather resistant, easy to clean and maintain, suitable for outdoor seating and soft furnishings and manufactured for international hospitality and export markets.

Recycled Fabric

Crafted from recycled materials, this eco-conscious fabric combines sustainability with performance and style. Designed for modern interiors, it offers durability, comfort, and a reduced environmental footprint without compromising quality. The fabric is made from recycled materials that are sustainable and environmentally responsible. It is durable and easy to maintain, suitable for upholstery, curtains, and soft furnishings.

Nesterra's Eclipse Blackout Collection

Nesterra's Eclipse Blackout Collection is designed for superior light control, privacy, and comfort combining high performance with elegant aesthetics, ideal for residential, hospitality, and commercial spaces. These exceptional light-blocking fabrics improve energy efficiency in curtains and window treatments and are available in a range of sophisticated designs and colours.

PreSense Trends 2026-27

HGH India has unveiled PreSense, its Trends Forecast for 2026-27, for home and lifestyle trade. PreSense is built on a simple observation: as the world grows more virtual, the human instinct to touch, feel and sense

grows sharper. The forecast maps how India's consumers are redefining what a home looks, feels and means, through four distinctive themes. The trends are interconnected in the tones of sustainability, nostalgia and technology, each evoking a distinct mix of emotions.

The Trends Pavilion at 19th HGH India will bring PreSense to life through carefully selected products, visual merchandising references and experiential zones that translate the forecast into tangible design and display language. Brands, manufacturers, retailers, importers and architects can find trending

colour stories, material palettes and ideas to replicate them in designs, that align with evolving consumer expectations, and develop new home product collections.

PreSense Trends are divided in four sub-themes: Manchala Mind, SunWoven, Kala Sangam and Colour Wave.

HGH India Interactive Knowledge Sharing Sessions

HGH India Interactive, the knowledge sharing sessions on 30th June and 1st July, 2026 in hall 6, will facilitate the audience to understand upcoming design and market trends as well as

emerging issues in retail, interior projects design, manufacturing and marketing. Presentations and panel discussions by opinion leaders, domain experts & professionals along with direct interaction with them will help in developing vision and direction for your business growth for retailers, architects and interior designers, brands, manufacturers and distributors. Detailed conference program and registration are facilitated through our website www.hghindia.com as well as through IIID MRC office.

IIID continues support

IIID MRC, the renowned body of professional architects and interior designers continues to partner with HGH India.

"HGH India offers immense value to the Architect fraternity in terms of trend information, innovative products and new sources for their projects across categories like home furniture, soft furnishings and decorative accessories, besides a modern range of houseware and kitchen appliances," says Ketan Sheth, Chairman, IIID, MRC. "Addition of International products from Italy and other countries, Sustainability, HomeTech and a wider range of handloom and handicrafts in this 2026 edition, make a visit to this show even more mandatory," he adds.

Leading Architects have been regularly visiting HGH India as they find multiple and co-ordinated sourcing solutions, upcoming Design and market trends under one roof.

IIID is also supporting the H-Circle Product Innovation Awards.
